

General Education Screening for Dyslexia WORKSHEET

Based on what you are currently using at your district and/or school site, fill in the worksheet below to see which tools address the skills needed to be screened for dyslexia. Then, discuss any issues you may be seeing with your current model.

- Who is doing the screening?
- How are you collecting the data and presenting it to teachers?
- How are you determining next steps? Who gets Tier 2 intervention?
- What are your Tier 2 interventions?
- Are your students making progress with the current interventions?
- What issues are you seeing that might need to get addresses?

| Screener/Tool Used | Phonemic Awareness | Letter Naming | Sound-Symbol Correspondence | Single Word Decoding - Real | Single Word Decoding - NS | Sight Word Recognition |
|-----------------------------|--------------------|---------------|-----------------------------|-----------------------------|---------------------------|--------------------------|
